About TradingTech Insight Awards USA 2022

Congratulations to the winners of A-Team Group's TradingTech Insight Awards – USA 2022. These annual awards recognise excellence in trading solutions and services for capital markets, and focus on vendors providing exceptional and innovative trading infrastructure, technology, and data solutions dedicated to the challenges faced by firms operating in the US trading environment.

This year's awards included 36 solutions and services categories ranging from Best Managed Services Solution for Trading to Best Machine-Readable News Supplier, Best Cloud-Based Market Data Delivery Solution, Best Time Stamping/Latency Measurement System, Best High Performance Network Services, Best Trading Analytics Platform, and more.

An additional Editor's Recognition Award for Best Trading Technology Practitioner was won by Nikhil Singhvi, Managing Director, Head of Core Trading Technology, at Credit Suisse.

Thank you to all the vendors that entered the awards, to our expert advisory board and industry practitioners that provided guidance on the awards, and to all the members of our TradingTech Insight community who voted for their preferred trading technology solutions and services providers.

The awards were presented during a lively celebration after the close of A-Team Group's TradingTech Insight Briefing in New York City on 16 June, 2022.

If you would like your company to be considered for future awards, including A-Team Group's TradingTech Insight Awards – USA 2023, visit <https://bit.ly/TTIUSAAwards> and either enter your details to be notified when we open for nominations, or submit your company if we are open for nominations.

Andrew Delaney
President & Chief Content Officer
A-Team Group

I'd personally like to thank our advisory board for their time and valuable input.

Droit empowers institutions to make millions of decisions — complying with thousands of complex rules, every day.

Act right with confidence.

Winner: Best Pre-Trade Risk Controls Provider

Droit builds mission-critical, breakthrough products to advance global regulatory compliance and real-time controls. Droit partners with leading global financial institutions to create forward-looking operational and regulatory solutions within the ever-changing financial landscape.

Droit Adept is the innovative, patented platform that drives intelligent decision-making in a complex rule-driven landscape. Institutions rely on Adept to provide solutions for pre-trade and post-trade controls, evaluating the permissibility of transactions, compliant regulatory reporting, and more. Adept generates decisions directly from digitized rules, regulations, and internal policies, visually represented in intuitive logic diagrams and linked back to the original sourced text. This complete traceability empowers users to act right with confidence.

With locations in New York, London, Sydney, and Singapore, Droit continues to broaden its industry reach and offer clients breakthrough products enabling them to take the next right action.

About Droit

Droit is a technology firm at the forefront of computational law and regulation within finance and other domains. Founded in 2012, Droit counts many of the largest financial institutions on the globe as its clients. Its award-winning, patented platform Adept processes tens of millions of inquiries a day, deciding in real-time which interactions are legally permissible across the globe.

Winner: Best Sell-Side OMS

Broadridge's Sell-Side OMS is a flexible, high performance solution capable of automating multiple high and low-touch trading workflows and middle office functions. Certified for cybersecurity (ISO27001), the system supports multi-asset, high-volume trading throughout the order lifecycle while meeting ever-changing regulatory requirements across the globe.

It enables customers to:

- Connect to over 200+ venues including all major exchanges, brokers and SI's, combining lit and dark market access with IOI & crossing detection to source the best liquidity.
- Access Order Routing Networks with 1800+ buy and sell-sides clients
- Reduce the time to onboard clients and start capturing orders without delay using AI-powered onboarding and testing tools.

It empowers agency brokers to:

- Facilitate trading for equities, ETDs and fixed income within a single platform.
- Support both high- and low-touch workflows with extensive exception management across all asset classes.
- Manage complex portfolio trading with a high degree of flexibility.
- Provide liquidity through market-making activities or facilitation workflows.
- Deploy liquidity seeking strategies via our powerful automation framework.
- Fully support RFQ workflows to request and respond to quotes using our automation engine.
- Tailor screens and customize actions to react faster to opportunities or critical situations.
- Stay compliant by utilizing low latency, pre-trade risk and trade reporting tools.

About Broadridge

Broadridge Financial Solutions (NYSE: BR), a global Fintech leader with \$5 billion in revenues, provides the critical infrastructure that powers investing, corporate governance, and communications to enable better financial lives. We deliver technology-driven solutions that drive business transformation for banks, broker-dealers, asset and wealth managers and public companies. Broadridge's infrastructure serves as a global communications hub enabling corporate governance by linking thousands of public companies and mutual funds to tens of millions of individual and institutional investors around the world. Our technology and operations platforms underpin the daily trading of more than U.S. \$9 trillion of equities, fixed income and other securities globally. Acquired by Broadridge in May 2021, Itiviti is now Broadridge Trading and Connectivity Solutions. Our combined offering enables simplification and streamlining of all front office, middle office and post-trade functions — powering connectivity and multi-asset trading across global markets.

Broadridge®

Winner: Best Managed Services Solution for Trading

ION focuses exclusively on software and data to digitize and automate mission-critical workflows for capital markets trading, and treasury and risk management; high-value analytics and insights for decision-making; and strategic consulting to financial institutions, central banks, governments, and corporate organizations.

Since 1999, we have provided financial technology solutions and services that simplify complex processes, boost efficiency, and put greater intelligence in the hands of decision-makers.

Our business has grown through acquisitions, assembling some of the best financial technology companies. Today, ION ranks among the world's largest financial software and data firms. Superior technology, best practice service levels, and market-defining intelligence are our hallmarks.

We are passionate about helping our customers transform their business through continuous innovation.

Our ION Markets division provides technology and data solutions to financial institutions dealing in equities, fixed income, FX, cleared derivatives, and secured funding. Our solutions equip clients to view real-time trade processing, manage risk, and execute globally.

Our FX solutions unify execution, order management, and post-trade processing into a simplified, consolidated, real-time workflow. We continually invest in connectivity, pricing, distribution, and post-trade solutions to provide the best FX technology and services. The ION FX suite includes:

- MarketFactory, whose low-latency leading Whisperer product provides market data and orders normalization via a single API, with instant connectivity to 90+ venues; and real-time pre-trade checks against global limits across all venues.
- Barracuda FX, a global market leader in end-to-end eFX trading and order management systems, providing high performant solutions for trading and algos, pricing, and distribution.

About ION Markets

We provide technology and data solutions to financial institutions dealing in equities, fixed income, FX, cleared derivatives, and secured funding. Our solutions digitalize and automate workflows so clients can view real-time trade processing, manage risk, and execute globally. Our FX solutions unify execution, order management, and post-trade processing into a simplified, consolidated, real-time workflow. We continually invest in connectivity, pricing, distribution, and post-trade solutions to provide the best FX technology and services.

Moody's Analytics

Winner: Best Machine-Readable News Supplier

NewsEdge™ Signal – Best Machine Readable News Provider

Major financial institutions trust the NewsEdge Signal solution to feed their trading algorithms and models with important breaking news at unparalleled speed. NewsEdge Signal delivers the fastest feed available to financial professionals who are serious about news-based trading strategies using the industry's most respected sources on the events that move markets: corporate actions, earnings announcements, unanticipated news – even rumors. All content is processed, standardized, indexed and delivered with near-zero latency formatted in a streamlined machine readable format.

NewsEdge has a long history of supplying aggregated, real-time newsfeeds to the financial industry so we are experts in being able to identify critical information in the news through our news processing operations. News events are key drivers in market movement so we apply codes specifically designed for trading and market-moving events to inform and train machine learning trading models to put into action in algorithmic applications.

Not only do we understand the nuances of news processing, parsing out relevancy among the noise, but we are experts in doing so with unparalleled speed. Our direct provider relationships, colocation in key market data centers, and patented delivery protocols means we can deliver critical news in milliseconds, faster than competitive offerings.

About Moody's Analytics

Moody's Analytics provides financial intelligence and analytical tools to help business leaders make better, faster decisions. Our deep risk expertise, expansive information resources, and innovative application of technology help our clients confidently navigate an evolving marketplace. We are known for our industry-leading and award-winning solutions, made up of research, data, software, and professional services, assembled to deliver a seamless customer experience.
