About ESG Insight Awards 2023

Congratulations to the winners of A-Team Group's ESG Insight Awards 2023. The awards recognise both established solution vendors and innovative newcomers providing leading ESG solutions, services and consultancy to capital markets participants. The awards were presented after the close of A-Team Group's ESG Data and Tech Summit in London on 11 May 2023.

The awards included over 20 categories of ESG solutions ranging from Best Regulatory Reporting Solution to Best Overall Data Provider, Best Company Disclosure Provider, Best Analytics Provider, Best AI / ML Solution, Best Sentiment Data Provider, and more.

An editor's recognition award for ESG Industry Professional of the Year was presented to Janine Hofer-Wittwer, Head of ESG Data and RegRisk Services, Financial Information at SIX.

Thank you to all the vendors that entered A-Team Group's ESG Insight Awards 2023, to our ESG Insight community that voted for its preferred solutions, and to our independent, expert advisory board that worked in collaboration with our editorial team to select this year's winners.

Finally, our compliments to all the award winners, who should be deservedly proud of their achievement in a highly competitive contest.

If you would like your company to be considered for future ESG Insight Awards, [click here](#), where you can either enter your details to be notified when we open for nominations, or submit your entry if we are already open for nominations.

I'd personally like to thank our advisory board for their time and valuable input.

ESG Foundation Course

Gain solid foundational knowledge about how ESG - Environmental, Social and Governance - is shaping financial markets, and the impact of ESG regulations on data and technology, with our on-demand course

You will learn:

- The driving forces behind ESG including the connection to the United Nations Sustainability Development Goals (SDG)
- Gain a holistic view of all the ESG dimensions including environmental, societal, and governance considerations
- All the essentials of ESG including recognised definitions
- Understand the World Economic Forum's Stakeholder Capitalism model
- Gain an appreciation of the data challenges involved in ESG reporting
- Recognise the importance of data governance and meta-data in the context of ESG reporting in order to avoid greenwashing, fines and reputational risks

About the Instructor:

Hany Choueiri, a top data influencer, advises companies on ESG best practices and advocates Stakeholder Capitalism, leveraging his extensive experience in private and public sectors

To Register

Course Type: On-Demand

Course Duration: 2.5 hours

Course Price: £495; reduced to £465

Regnology

Winner: Best Regulatory Reporting Solution for ESG

Regnology ESG is an efficient ESG data and reporting solution covering different reporting regimes including European Banking Authority's (EBA) disclosure requirements, EU Taxonomy Regulation and potential CSRD.

Our ESG solution offers greater financial institutions to comply with the EBA's new risks disclosure ITS (449a CRR) that requests to disclose climate-related risks and mitigation strategies, as well as Green Assets Ratio (GAR) and information on how sustainability is associated with their risk management framework. It also supports credit institutions to meet the requirements of the EU Taxonomy Regulation (EU 2020/852 and EU 2021/2178) which requires undertakings to disclose the proportion of their economic activities that are Taxonomy-eligible or Taxonomy-aligned.

Leveraging Regnology Abacus Data and Calculation engine, an integrated platform for reporting, calculation and validation with a harmonized functional library, FIs can avoid reporting redundancies and increase ESG reporting quality, efficiency and consistency across reporting regimes. An extensive coverage of reporting regimes combined with a unique data model allows easy integration of new obligations for ESG into users' reporting framework which facilitates timely reporting submissions.

For more information about Regnology, connect with us on **LinkedIn** and **Twitter**.

Visit our website: www.regnology.net

About Regnology

Regnology is a leading technology firm on a mission to bring safety and stability to the financial markets. With an exclusive focus on regulatory reporting and more than 34,000 financial institutions, 50 regulators and tax authorities relying on our solutions, we're uniquely positioned to bring greater data quality, efficiency and cost savings to all market participants. With over 800 employees in 15 countries and a unified data ingestion model powering our work, our clients can quickly implement and derive value from our solutions and easily keep pace with ongoing regulatory changes.
