About Data Management Insight Awards – Europe 2024

Congratulations to the winners of A-Team Group's Data Management Insight Awards – Europe 2024.

In these annual awards, we acknowledge leading providers of data management solutions, services and consultancy services to capital markets participants across Europe. We take pains to include innovative newcomers as well as established solution vendors.

These awards recognise the cream of the industry in more than 30 categories of data management solutions and services, and include Most Innovative European Data Management Provider, Best European Consultancy in Data Management, Best Corporate Actions Processing Solution and Best Data Management Initiative for ESG.

This year we presented our editor's recognition award for Data Management Industry Professional of the Year to Duncan Cooper, Chief Data Officer, Asset Servicing at Northern Trust.

Also, I'd like to take this opportunity to thank all the vendors that entered A-Team Group's Data Management Insight Awards – Europe 2024 and to our Data Management Insight community that voted for its preferred solutions. Permit us, also, to extend our thanks to our independent, expert advisory board, which worked in collaboration with our editorial team to select this year's winners.

The quality of services and products that we see offered in the market – and entered in these awards – continues to impress us at A-Team Group and this year's winners should feel justly proud that they prevailed against some very tough competition. Our compliments go out to you.

If you would like your company to be considered for future Data Management Insight Awards in Europe or the USA **click here**, where you can either enter your details to be notified when we open for nominations, or submit your entry if we are already open for nominations.

Andrew Delaney
President & Chief Content Officer

Capco

Winner: Best European Consultancy in Data Management

Capco's global Data Practice, with over 1,300 specialists, empowers financial institutions to unlock the full value of their data. We transform how clients manage, store, and utilize data, delivering impactful business outcomes for them and their customers.

In 2024, Capco has led the charge in leveraging generative AI for financial services, developing 35 GenAI accelerators to address strategic priorities. Our Data Labs have expanded to create innovative prototypes, from GenAI-enabled call summaries to data quality monitoring, now deployed in major UK banks.

As pioneers in semantics and knowledge graphs, we implemented a 500-million-triple digital twin for a global investment bank, enhancing resilience and data governance while simplifying complexity. Our 150+ ESG experts deliver cutting-edge platforms and reporting solutions, helping financial institutions meet ESG obligations, drive net-zero transitions, and create societal value.

Capco's commitment to innovation extends to developing diverse talent through our Associate Data Programme and partnerships with organizations like Women in Data. Our pro-bono Impact Consulting has supported nonprofits, such as Cranfield Trust, by streamlining data processes to maximize impact. With deep domain and data expertise, Capco enables financial institutions to place data at the heart of business outcomes.

FundGuard

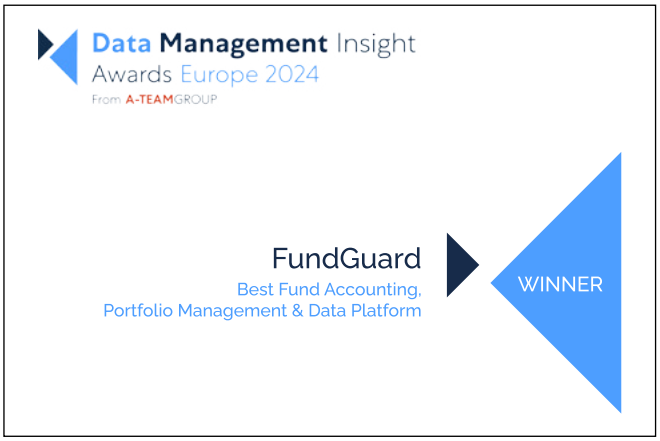

Winner: Best Fund Accounting, Portfolio Management & Data Platform

FundGuard is transforming investment operations with its AI-powered, cloud-native investment accounting SaaS designed for asset managers, asset owners, custodian banks, fund administrators and other service providers. Their unique technology stack is built on a cloud-native, AI-driven infrastructure, providing scalability and flexibility to adapt to evolving industry demands.

The platform's real-time processing capabilities and continuous controls ensure data integrity and compliance, delivering dynamic, real-time accounting data and enabling an all-in-one multi-book platform with comprehensive solutions for ABOR, IBOR and CNAV. This unified approach allows clients to manage diverse asset classes and jurisdictions within a single system, reducing redundancies and operational fragmentation.

FundGuard's clients are shaping the future of investment accounting and will be the first to see the benefits of a high-quality utility that is informed by cross-industry collaboration, removes the pain and risk of back-office processes and frees up time and resources for true differentiators. The platform's collaborative approach fosters industry-wide innovation, allowing stakeholders to collectively address new regulations and market developments.

By delivering cost-efficient solutions through modern workflows, automation, and cloud technology, FundGuard enables clients to scale for the future, reduce operational costs, and enhance customer experiences.

About FundGuard

FUNDGUARD

FundGuard is transforming legacy operating models with a front to back, AI-powered, cloud native and multi-asset class investment accounting platform for asset managers, asset owners, custodian banks and fund administrators.
Visit www.fundguard.com to learn more about our all-in-one, multi-book solution for CNAV, ABOR and IBOR.

S&P Global Market Intelligence's Corporate Actions Processing Solution revolutionizes financial operations, delivering unparalleled accuracy and transparency. With over a decade of innovation, our platform streamlines corporate action processing, from mergers to dividends, using advanced automation and real-time data. Scalable and flexible, it adapts to diverse needs, enhancing efficiency and reducing risks. Seamless integration, robust analytics, and dedicated support empower financial institutions to make informed decisions swiftly, ensuring operational excellence in today's dynamic market

S&P Global Market Intelligence

Winner: Best Buy-Side Managed Services Platform

EDM (Enterprise Data Management) is S&P Global Market Intelligence's flagship enterprise data management solution. It allows firms to establish trust and transparency in their data and has over 200 clients utilizing its robust capabilities. EDM enables organizations to centralize trade, operational, risk, financial, and customer data from various sources into a single data hub. Featuring powerful data validation, data quality and data governance functionalities, it allows users the flexibility to construct hierarchies and create mastered datasets that are enriched, verified, and prepared for consumption by downstream systems. This traceable and validated data is accessible to users across the organization and is complemented by EDM's Data Dictionary, which offers a comprehensive catalogue of available data. Furthermore, EDM provides a strong framework for transparency and enhanced data governance practices.

WeeFin

Winner: Best Data Management Initiative for ESG

WeeFin is a French impact fintech founded in 2018 with a precise mission: to raise the standards of sustainable finance and make it the industry norm.

Convinced that sustainability should be at the heart of every investment decision, we developed the first SaaS technology fully dedicated to sustainable finance. By combining deep financial expertise with innovative technology, we address one of the biggest challenges in the industry today: making sustainable finance both actionable and impactful.

Our software is designed by ESG experts as a turnkey platform to simplify ESG processes and build a differentiating strategy. At a glance, Weefin's ESG Operating System provides:

- A Golden Source for ESG Data: aggregation and centralisation of internal, commercial & public ESG data.
- Industrialisation of reporting: automatisation of the production of regulatory & custom reports (TCFD, UK SDR, EU SFDR, stewardship report...)
- Engagement & voting: monitoring and recording of engagement and votes with dashboards

Our platform is modular and flexible by nature so that it can be adapted to the unique needs and maturity levels of financial institutions, allowing them to scale and grow their sustainable finance strategies seamlessly.

https://www.weefin.co/

Grégoire Hug, CEO and Marion Aubert, Head of WeeFin UK

About WeeFin

WeeFin is a French impact fintech founded in 2018 and revolutionising sustainable finance with the first SaaS platform dedicated to ESG integration. Designed by ESG experts, our platform simplifies data aggregation, automates reporting, and enhances engagement processes for financial institutions. With modular solutions tailored to diverse needs, WeeFin empowers clients to scale impactful sustainable strategies seamlessly. Together, we're making sustainable finance the norm.
