

RegTech Insight Awards Europe 2025 Winners' Report

About RegTech Insight Awards Europe 2025

Congratulations go out to the winners of A-Team Group's RegTech Insight Awards Europe 2025. The awards recognise both established providers and innovative newcomers providing RegTech solutions to capital market participants that significantly improve their ability to respond effectively to evolving and ever more complex regulatory requirements.

The prior year was particularly impactful including a relentless wave of regulatory refits. Foundational rulebooks—from trading and reporting regimes to resilience and sustainability mandates—were comprehensively overhauled almost in parallel, forcing firms to accelerate their compliance roadmaps and technology upgrades in record time. It's against that backdrop that this year's winners were chosen.

This year's RegTech Insight Awards Europe included more than 40 categories spanning the entire regulatory ecosystem—from Best Trade Surveillance Solution to Best Cloud Solution for Regulatory Compliance to Best Transaction Cost Analysis Solution for Best Execution to Best Tax Compliance Solution and many more.

An editor's recognition award for European RegTech Industry Professional of the Year was given to Yasmine Li, Head of EMEA Surveillance, Macquarie.

I want to thank all the vendors that entered A-Team Group's RegTech Insight Awards Europe 2025, to our RegTech Insight community that voted for its preferred solutions, and to our independent, expert advisory board that worked in collaboration with our editorial team to select this year's winners.

Finally, our compliments to all the RegTech Insight Award winners, who should be deservedly proud of their achievement in an increasingly challenging regulatory environment.

Are you a RegTech solution provider with a strong case for being included next year? [Click here](#) to be alerted when A-Team Group announces entries for the 2026 awards.

Andrew Delaney
President & Chief Content Officer
A-Team Group

I'd personally like to thank our advisory board for their time and valuable input.

SIX

Winner: Best Trade Surveillance Solution

SICAM, our Integrated Service against Market Abuse, is the tool that enables the compliance with regulatory requirements related to the fulfilment of the STR obligation according to the MAR. Additionally, it provides a function to support the Internal Code of Conduct management. It gathers all the information needed for the detection and analysis of market transaction in a platform that notifies Compliance Officers of any information or situation that requires their attention via automatic alerts. These alerts are generated and tailored to each entity that show the details of market transactions effected by clients or the entity itself. This kind of alerts allows the control of most of conducts defined as suspicious of market abuse or of market manipulation.

Thanks to its innovative and secure technology, powered by high quality market data and its user-friendly and customizable interface, SICAM allows easy and intuitive monitoring of transactions (through the orderbook, intraday charts, alerts..), supports efficient compliance processes and reporting obligations. To follow the new market trends, SICAM is always evolving and integrating new asset classes. SICAM has also harnessed the potential of generative AI to expand its capabilities and to extend its reach.

With SICAM, you consolidate your compliance and go even further, genuinely making a difference with data.

Berta Ares Lombán, Head Program & Innovation Office

About SIX

SIX serves the Swiss and Spanish financial centers and a broad international client base, offering stable and efficient infrastructure services. SIX operates stock exchanges and provides services in securities, financial information as well as the payments business. The company is owned by its users (about 120 financial institutions). With over 4,400 employees and a presence in 19 countries, SIX generated operating income of CHF 1.6 billion and EBITDA of CHF 443.7 million in 2024.

Editor's Recognition Award for European RegTech Industry Professional of the Year

Yasmine Li, Head of EMEA Surveillance, Macquarie

Yasmine Li is the Head of EMEA Surveillance at Macquarie Group, where she leads the surveillance capability across detection and investigations of any potential incidents spanning market abuse and conduct concerns. She is an experienced surveillance lead within the financial industry and energy markets, with expertise spanning the development of surveillance strategies, business and operating model transformations, market abuse risk assessments and delivery of technology enablers. She has a keen interest in AI and how it will inevitably transform the industry and the operational landscape.

Yasmine Li, Head of EMEA Surveillance

Winner: Best Cloud Solution for Regulatory Compliance

MyComplianceOffice (MCO)

MCO (MyComplianceOffice) provides compliance management software that enables companies around the world to reduce risk and effectively oversee regulatory obligations.

Our singular and powerful platform lets compliance professionals demonstrate they are proactively managing the regulated activities of the company, employees and third parties and provide evidence of regulatory compliance. Available as a unified suite or à la carte, our easy-to-use and extensible SaaS-based solutions get firms up and running quickly and cost-effectively.
