About Data Management Insight Awards – Europe 2025

It's that time of year again when we have the pleasure of congratulating the winners of A-Team Group's Data Management Insight Awards – Europe 2025.

Now in its fourth year, these annual awards are our way of acknowledging the leading providers of data management solutions, services and consultancy services to capital markets participants across Europe. As well as established solution vendors, we are dedicated to including innovative newcomers to this dynamic space.

These awards recognise the cream of the industry in more than 30 categories of data management solutions and services, and include Most Innovative European Data Management Provider, Best Data Solution for Digital Assets, Best AI-Based Data Management Capability and Best Data Management Platform for ESG.

This year our editor's recognition award for Data Management Industry Professional of the Year was presented to Lynn Watts, Head of Data Management and Governance, Royal London Asset Management.

Also, allow me to take this opportunity to thank all the vendors that entered A-Team Group's Data Management Insight Awards – Europe 2025 and to our Data Management Insight community that voted for its preferred solutions. Permit us, also, to extend our thanks to our independent, expert advisory board, which worked in collaboration with our editorial team to select this year's winners.

Each year, we at A-Team Group are impressed by the quality of services and products that we see offered in the market – and entered in these awards – and this year is no exception. This year's winners should feel justly proud that they prevailed against some very tough competition. Our compliments go out to you.

If you would like your company to be considered for future Data Management Insight Awards in Europe or the USA **[click here](#)**, where you can either enter your details to be notified when we open for nominations, or submit your entry if we are already open for nominations.

I'd personally like to thank our advisory board for their time and valuable input.
